

Sprout 1 News

Vroom roared trucks down the hall and room. "We are all so fast" said Sprout One with a zoom. Cars and trucks are the best things ever.

In June we all really enjoyed our transportation theme. You could see all the sprouts zooming cars inside and outside. We all had fun at circle time singing and reading about different vehicles. Evelyn would see the "Down by the Station" book and start singing before the book was even open. We read the "Hot Rod Hamster" and when it came to race time in the book everyone would say "Ready, Set, Go!"

At activity time we had different wheeled activities. When Wesley was dropped off in the morning he would run to the trains, put the tracks together and say "Choo, Choo!" Pierce also enjoyed playing with the trains. He would take them to the table, line them up, then throw them in the basket and say "Bye." Lucas and Charlie had a great time racing the trucks door to door. Charlie would tell Lucas "Come on let's race." When they got across the room and touched the door Lucas would then tell Charlie "I win."

We had many different things in our sensory bin during the month. One week we had ABC Blocks and hot wheel cars. Quin built a great house with the blocks and told Ms. Teresa "I built a house for my cars." Josh enjoyed taking the cars thru the toy garage. As he was putting them in he would say "I fix em." Rory and Elin really got excited when they saw all the different transportation books. Rory would look at the school bus book and sing "Wheels on bus." Elin enjoyed reading the books to her friends. She would get a few books, sit on the floor and say to her friends "Come sit. Yisten."

Art time and outside time were also a great zooming adventure. We made all kinds of different vehicles at art and also drove cars thru mud. (It really was chocolate pudding, but the sprouts didn't know) Jameson sat at the table for the longest time just rolling his car all over the mud. When we asked him if his car was getting muddy he just shrugged his shoulders and said "Yeah." Outside time we pulled out the big trucks to ride on and rode the bikes and cars all over. Hot Rod

Amelia would get in the car and zoom around as fast as she could. She would smile the whole time she was speeding around. June was a great transportation month. It seemed to just “Zoom” on by.

In July we will be having “Life on the Beach.” At circle time we will be singing about fish and reading about fish and whales. During art time we will be making things you see in the ocean and on the beach. We will be exploring and looking at different things that are at the beach and finding out what happens when you mix water and sand together. We all can’t wait to see what fun beach adventures await us.

If you have any fun items from the beach that we could explore for the month we would love for you to share them with us. Also if you could bring in either lots of weather appropriate extra cloths or a bathing suit to keep here thru the summer that would be wonderful. We try to do lots of water play as the weather gets warmer and they do love to splash and get very wet. Thank you again for all you do and say. We hope you have a great July and 4th.

Teresa, Amy and Nana Julie
