

FEBRUARY, 1ST 2018

Dear Families,

Thank you for your support and contributions during our buildings study!

Our visiting experts, real artifacts and the great team who joined us for our building investigation walk earlier this month made this exploration into buildings truly special for the blossoms.

On January 31st, the Blossoms are heading to the downtown Deschutes Public Library. We'll bring with us all the vocabulary, concepts and connections made during this study.

During February, we'll spend the culmination of our current study exploring famous buildings and creating our own representations. **Please feel free to bring in a few interesting, small, clean items of recycling for the Blossoms to build with including items that can be used for windows, doors, features etc.**

On Monday, February 12th we'll begin a short 'Winter Olympics' study. The Blossoms will have a chance to compete in their favorite events, run a relay torch lighting ceremony, and receive their gold medals at the closing of the games. We'll try bobsledding, figure skating, snowboarding, and more. Let the XXIII Olympic Winter Games begin!

On Tuesday, February 20th the Blossom will begin their 5 week study of the human body. We'll cover the skeletal and muscular system, the circulatory system, digestion, and finish with the brain and nervous system. Please come join us as a visiting expert! We're happy to work around your schedule.

We do our best to keep your children's hats and gloves safe at school and convenient for you and for them to find. We encourage Blossom's to use their 'blue basket' at the top of their cubby. Your encouragement goes a long way! Please place your child's hat and gloves in their blue basket and remove summer change of clothes when doing so. Please label your children's spare clothes, and winter clothes. Thank you for helping us stay oh so warm!

Growing tree will be closed on Monday, February 19th for Presidents Day.

Please check your child's cubbies for items that need to be returned home as well as your child's work file located near our classroom door.

All medications that left in the classroom **MUST** be documented with signed consent! This includes lip balm. Please seek a medication form from any of your Blossom teachers before leaving these items with your child!

We are so grateful to you for sharing your creative, kind, curious, clever, capable, caring children with us each day.

We wish you well,

Lane, Hannah, Emily, Joey, Kindaroo, Coyote
