

Sprout I News

I think the warm weather is finally here to stay. The Sprouts have been enjoying shedding those big heavy coats and trading them for their lighter jackets. It is definitely time to break out that sunscreen! If you have not already done so, please bring in sunscreen for your child and label it with their name. We will also need you to fill out a sunscreen permission form. April has brought us so many fun activities, and May promises to bring even more. **Owen** and **Emmett** have spent a lot of their outside time shooting hoops. **Owen** has great form squatting and bouncing before he shoots the ball, and when he makes a basket he looks for a teacher and shouts “basket”; he sure is talking up a storm! **Emmett** is tall enough that he can almost dunk the ball and tries really hard to do just that. When he does make a basket he says, “I did it!” **Chloé** has been helping the rain disappear by reading her favorite book- Rain, Rain, Go Away. You can hear her throughout the day singing “Rain, rain, go away, no come again another day.” **Ellie** and **Alex** enjoyed making handprint bird nests and putting their baby bird fingerprints in them. **Cash** loved singing and making the hand motions for ‘Mr. Sun’ at circle time and listening to Mouse’s First Spring. At the end of each page he would shout out the last word and laugh. **Eleni** and **Reese** helped Ms. Amy draw insects on the sidewalk with chalk helping her put the dots on the lady bug and the antennas on the caterpillar. **Meera** took advantage of our nice outside weather and pulled on her helmet and jumped on the strider bike and cruised around the playground as fast as she could.

In May we are exploring **Movement and Our Bodies**. Outside an obstacle course will be set up to challenge their gross motor skills. There will be a lot of different movement activities such as Lily Pad Hop, Balloon Paddle Ball, Bean Bag Tosses and many more to keep us moving! Inside we are reading stories about moving and keeping our bodies healthy. We are going to learn about where our food comes from, do a little grocery shopping and prepare some healthy meals. Sprouts will learn all about their bodies and explore some X-rays of what our bones look like. May is going to be a very exciting month!

Sprout I News

The weather does start out chilly so be sure to bring a light jacket to keep these Sprouts warm in the morning. Thank you!

Dates to remember:

- May 4th - First Friday
- May 28th - Memorial Day- NO SCHOOL THIS DAY

Teresa, Amy, Nana Julie

May-18
