

# THE BRANCH ROOM NEWSLETTER

THE GROWING TREE CHILDREN'S CENTER

## MAKING THE SPACE THEIRS!

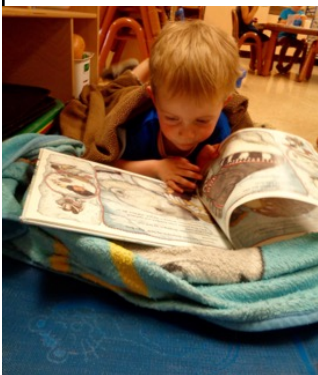

In the past few weeks, we've given the children time to explore their new classroom, get used to the flow of the day and start to turn the environment into their own. They've made a banner, charts, hung artwork, a collaborative tree, continue to feel independent in practical life skills - washing hands, potty work, cleaning up when it's time to move on to another activity and settle in to nap time. I've also watched them discuss, interact and come up with their own ideas during circle time. New relationships have been made and even more are to come.

Has anyone seen Declan? I can't find him anywhere.

They conquered the monkey bars in a week!!

Mason gets ready for naptime.

Fall is approaching.

Lending a helping hand.

Computer time with Ms Stacie.

Circle Time with Ms Kim.

Small group work fosters new friendships.
