

Seedling News

Was it just us or did February seem unusually long this Year?

(Ha-ha leap year)

The groundhog was right, spring is in the air! The weather has been beautiful and even the flowers are starting to push up out of the ground. This time of year we like to ask parents to bring in a jacket and hat for their little ones so we can take advantage of some of these warm afternoons by taking the little ones out for some fresh air; even if it's just for a few minutes. The big guys especially love having a little more wiggle room to move about and they all love the change of scenery and fresh air.

This month we say good bye to Rory and Evelyn as they join the big seeds next door. They have been spending time with them the last couple weeks and have really enjoyed it. We will miss Evelyn's playful nature and Rory's snuggles.

Teagan is happy to take on the role as big girl on Campus. (She actually claimed that role a while ago) She has finally figured out how to pull up on the activity cube and can stand on her own. No more begging us to hold her hands so she can stand and her bottom scoot to get around on the floor never fails to make us laugh. Boden is pulling up and cruising the furniture as well. With Rory transitioning next door Teagan and Boden have really hit it off. They chase each other around the room giggling and laughing. Adelyn is rolling and rolling all around the room and is even trying to get up on her knees to try and crawl. She has really enjoyed getting to sample all the big seed food. Pierce is also getting his roll going and is finding his way all over the classroom. He loves exploring every nook and cranny he can get himself into and is starting to get some forward momentum doing a commando crawl. Kellen is getting very steady at sitting up solo for brief periods and is getting better at his tummy time moving around and exploring more on the floor. Kellen is also very excited about the new jumper in the room and loves the idea of being on his feet.

Last month we welcomed Reese and Scarlett to our room. Reese is a very happy, easy going girl with no shortage of smiles for anyone who talks to her. Scarlett is a little more reserved but is warming up to us quick and adjusting to the noise level. She prefers to observe and watch what is going on but is sharing her sweet little smile with us more and more often.

This month we will be welcoming Raya in the bud room's little brother Knox and Nicholas and his family who are new to growing tree. We look forward to getting to know them and their families.

We hope everyone has a great month!

Ms Jolene, Ms Haley & Ms Linda
