

Bud Newsletter

February was filled with love and pets. The Buds enjoyed The Pokey Little Puppy just as much as Deborah did when she was little. We learned a pet song that taught us pets need, love, food, water and time to run and play. Calvin said, "Just like me." We talked about the pets we have at home and their names. Outside we played with our balloon pets.

This month we learned about Beckett and Ben. Beckett's favorite colors are pink, purple, and gold. His favorite toys are dot, dot markers, books and his remote control police car. Ben loves the color Green and his favorite sports are skiing, and soccer. Both of them like to go to the High Desert Museum.

We made lots of fun art this month. We made pet Minions, that was Finn's favorite he showed everyone that came in. Lincoln loved his Clifford the Big Red Dog. He would read Clifford books and point to his art on the wall and say "I made him." One of our favorite's this month was color matching, heart candies to paper hearts. A few of our Bud friends enjoyed sneaking a bite of their candies so if you noticed a missing heart... well you can imagine where they ended up.

The adventure center was turned into the Bud pet store. It housed dogs, cats, food bowls, pet beds, vet tools, brushes and pet toys. The Buds had a lot of fun taking care of their pets. Jane and Quinn dressed up as Doctors and gave the pets a check-up. Jane said, "The doggy needs some medicine" as she pretends to put it in the dog bowl.

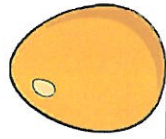

Valentine's Day was fun. The Buds enjoyed putting their cards in their friend's boxes and making their heart necklace's. We also celebrated Ms. Deborah's birthday this month. Beckett made sure everyone knew what day it was. Hazel told me Ms Deborah she needed a crown, and the Buds sat in a circle around Ms Deborah and sang Happy Birthday! Beckett even brought in cupcakes for the celebration. It was very sweet.

Our featured book in March is *HOW DO DINOSAURS..?*, written by Jane Volen and Matt Teague. This series of books describes how dinosaurs do different activities throughout their day. As you can imagine our room will transform into **PREHISTORIC** times.

Once again feel free to contact us with any questions or comments. Thank you.

DEBORAH & LETTY

Mar-16

Dinosaur Fun!

Monday	Tuesday	Wednesday	Thursday	Friday
	Handprint Stegoaurs	Dipodocus	T-Rex Skeleton	Ankylosaurus
