

Seedling's April News

The little tease of spring we got last month was sure nice and we even got to spend a couple afternoons outside enjoying the sun and fresh air, everyone was so happy. We are hoping for more than just a couple nice days this month (it's officially spring now so snow can go). Please be sure to bring your child a jacket and something warm for their feet every day so we are ready to go out when we get the chance. As the weather gets nicer we will be spending more and more time outside with the kids. If it is raining or cold we will still be staying in; however even when the weather is warm the grass can be a little damp so please make sure your crawler has extra pants so we can change them if their pants are wet or dirty. We like to encourage the mobile babies to explore as much of the play yard as they would like, this gives them a chance to get their wiggles out.

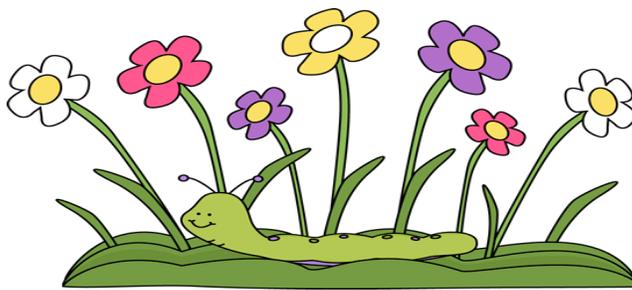

This month we welcomed **Eaven** and **Izzy** to our class. We have enjoyed getting to know them and their families and they are both settling in well. **Eaven** is a strong, curious girl who loves to dance and is pulling up on her feet and working on her balance. **Izzy** is a sweet little thing who likes to watch what is going on around her, is quick to smile and easy to snuggle.

Luke has been super busy pulling up, cruising the classroom and exploring every nook and cranny. He is starting to let go and stand on his own for longer and longer periods and has taken an interest in the walk behind push toy. He is going to be walking soon. He loves having **Eaven** to chase around and play with. **Jackson** is starting to push himself up onto his hands and knees and is rocking back and forth preparing to crawl. He watches his mobile friends longingly as they move about the class so he is working really hard on getting mobile himself. For now rolling around is still his go to move. **Lulu** has started pushing herself backwards on her tummy and turning in circles to get herself pointed in the direction she wants to go. She is also starting to get up on her hands and knees and rocking back and forth. It seems she is eager to be able to catch big sister Quinn. **Lillian** is starting to sit up with a little support and can even sit up on her own for brief periods. She loves the new view and is working on getting steadier

and reaching for toys without losing her balance. **Teddy** has started to roll from his back to his belly and back again and is starting to roll out of his gym and explore the great beyond. He is also starting to sit up with some support. His head control is getting better and he is starting to push up on his arms and reach for toys while doing tummy time. He is also enjoying spending a little time in the jumper but still loves his gym most of all.

As you have probably noticed Brianna left to be more available for her family and Korinea has taken her place. Korinea worked in the seedlings a few years ago and we are happy to have her back. We hope everyone has a great month and we get to spend more time outside!

Ms. Jolene, Ms. Melanie and Ms. Korinea

Think Spring!

- Conferences will be held on Friday, April 13th. There will be no school on that day. Sign-ups will be on the front desk
