

## Bud Room News

Summer is finally here and so is our new playground! The construction on the playground was so exciting we continued filling our days with some **Kidstruction** of our own. There were tall towers being built with bricks in the block center and the children were always making sure to wear their hard hats and safety vests because we all know the best part of building that tall tower is the demolition to help bring it back down.

During circle times the children enjoyed reading stories about construction workers and vehicles, singing songs and making up our own construction truck yoga poses. We were dump trucks dumping loads of dirt, cranes lifting beams high up in the air and bull dozers pushing piles of rocks out of our way.

The Buds are loving the new playground. So far, the new structure has been transformed into an airplane flying us to Disneyland to find the princesses and a train racing down the tracks making sure to blow the whistle at every crossing. This play structure has so many possibilities just waiting to be explored, we can't wait to see what this summer's fun will bring us.

For the month of July, we will be diving into the "**Commotion in the Ocean.**" There will be underwater adventures into sea caves, exploring the coral reefs and finding out who lives on the ocean floor. Art will have different sea creatures popping up all through the room. At circle time there will be new songs about the ocean and will be learning some new marine life yoga poses imitating sharks and jellyfish.

Outdoor play will bring us games like Feed the Shark, Island Hopping, and Catch the Flying Fish. We'll transform our play structure into a fishing vessel to catch crabs, lobster and fish or maybe a submarine so we can explore the depths of the ocean and imagine what creatures might lurk down there.

If your child has any fun and exciting ocean books, they would like to share with the class we would love to read them at circle time. Also, as the weather gets warmer there will be some outdoor water play. We will let you know ahead of time the dates so you can bring in swim wear and towels.

**Housekeeping:** If you can please check your child's basket to be sure they have weather appropriate extra clothes it would be greatly appreciated.

Ms. Amy, Ms. Kendra, & Ms. Brittany
