

THE MONTHLY **SPROUT 2**

GROWING TREE CHILDREN'S CENTER

March 2020

Dear Families,

Freestyle coloring is one of our favorite things to do! We are using our fine motor skills daily in many of our activities. **Piper** and **Ellie** love using crayons and making their very own masterpiece! **Lillian** and **Aspen** enjoy all the center activities our classroom especially the peg boards which also works their fine motor skills. **Opal** takes such good care of her baby dolls by always making sure they have blankets to keep them warm, so sweet!

Puzzles work Sprouts hand and eye coordination. **Brynley** finds joy in working on puzzles. As you can see by her big smile in this photo! Play dough has been a Sprout favorite lately! **Om** likes to break the play dough into little pieces on his tray and use the cookie cutters.

Outside play is a big part of our daily schedule and a great way for us to develop gross motor skills. **Ronin** and **Iris** ride bikes often and always remember to put on helmets! Safety first! Music and movement are also an important part of our day. Most days you can catch us dancing on the carpet or learning some great new yoga moves!

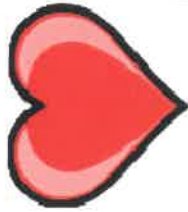

Music and Movement experience

March will find us learning about "Family". We will be reading books about family members and singing songs at school that we enjoy with our families. For art we will create self-portraits and family tree art. We will talk about family diversity and how each family is different. Please bring in a family photo for our wall if you have not already done so! Thank you all and have a great month and St. Patrick's Day!

Ms. Kelcy and Ms. Tracy

My Family

March

2020
