

July 1, 2021

Dear Families,

Summertime fun has been had in the Bud Room!

Our study for the month of June was Agriculture; we have greatly enjoyed the fun activities and projects this month in the Bud Room! We especially enjoyed learning about the process of Agriculture and the hands-on sensory activities listed below.

- Butter Making (tasting)
- Bread Making (tasting)
- Corn shucking (smelling)
- Dramatic Bakery play
- Wheat grinding
- Cow Milking (pretend)
- Planting/Growing seeds (slow process)

We discussed and observed all the different aspects of Agriculture from growing, harvesting, tasting, touching, and understanding all about what happens on a farm!

Highlights were:

- Making butter: shaking our own hand made butter.
- Making bread: mixing, rolling, and baking bread
- Eating the butter on our bread!!
- Working hard like farmers shucking Corn
- Farmers Market play

Vocabulary words:

- Agriculture
- Combine
- Harvest

- Flour (not the kind that grows in the garden)
- Wheat

Our study for the month of July we will be exploring all about "Science". What is science, types of science, process and exploration activities and sticky gooey messy science!

Reminder:

- No School Monday July 5th

Birthdays:

- Ellie – 7/1
- Brynley – 7/8
- Eleanor – 7/11
- Clover – 7/17
- Quinn - 7/17
- Om – 7/19

Thank you for all you do in supporting us here at Growing Tree and in the Bud Room! We appreciate you.

~Ms. Amy, Ms. Brittany, and Ms. Cami ☺
