

Seedlings News

We hope everyone enjoyed the Father's Day cards as much as we enjoyed making them. The babies were good sports about the costumes and pictures, and especially loved the light saber. It's by far one of our favorite projects of the year.

Teagan got a taste of being a Big Seed and eating at the big kids table, and now there is no coming back for her. Being put in a high chair and napping in a crib is no longer an acceptable option. **Adelyn** has been a happy little camper and has enjoyed being in both rooms. We will miss our feisty, snuggly girls, but they're definitely ready to move up. **Boden** loves getting to run around and play with Teagan, Adelyn and the other Big Seeds when we go out for playtime, but then embraces his little break when we come back in. He's also a fan of digging in the dirt with his spoons.

This month we will be celebrating **Kellen's** 1st birthday on the 9th and **Pierce's** on the 23rd. **Happy Birthday** boys! **Kellen** is getting his balance and enjoys pushing toys around the room to practice walking. It looks like we may have another walker soon.

Pierce is starting to get up on his hands and knees to crawl, but still prefers to use his commando crawl when he is in a hurry. He's also getting on his feet and is turning down baby food in favor of feeding himself Big Seed food.

It is no surprise to us that **Knox** has started taking steps on his own. He's always trying to keep up with the older kids and is very persistent and determined. Way to go Knox! **Reese** is starting to move forward from a sit to a crawling position, but is still working on where to go from there. We're sure she'll have it down in no time though.

Scarlett is sitting up solo, but really prefers to be down on her tummy where she can move around. She is pushing backwards, as well as doing 360's on her belly and we've even seen her creep forward pushing with her toes a couple times. **Sawyer** is starting to roll from front to back and back to front again, and often rolls himself out of his baby gym in search of new toys. When he sees us watching him, he smiles and laughs at us like he has a secret agenda. He loves his tummy time. **Nick** is also figuring out the whole rolling gig, but mostly sticks with the front to back roll and prefers to play on his back or even better-in the jumper! Nick could bounce all day if we would let him (we don't) and when he

starts to get sleepy he will slow down to a gentle bounce and try to rock himself to sleep...that's our cue!

It's beginning to get hot outside! If your little one is mobile, please remember to bring them in a sun hat and some shoes. We love bare feet, but the tiles gets hot on their little feet in the afternoon. Water play does happen in our room, so if you're picking up early or have someplace to go after pick-up, please let us know and we will have your child dry, dressed and ready to go!

We hope everyone has a great Month!

Ms. Jolene, Ms. Haley and Ms. Amy
