

June Seedlings News

We hope all our Mom's had a lovely Mother's Day and enjoyed the little keepsakes your babies made just for you. It was a very wiggly, giggly and tickly process to get those perfect little feet but we think it was worth it.

Birthdays, Birthdays and more birthdays! This group is growing up so fast. Last month we celebrated Jasper on the 3rd, Alex on the 8th, and Vivian on the 24th. This month we will celebrate Hunter's birthday on the 13th and Owen is just a few weeks behind on July 2nd. Our room is getting very busy.

We had a lot of big accomplishment this past month. Jasper and Alex took their first steps and have been working on building their confidence taking longer and longer walks. Jasper started out side stepping like a crab and can now walk straight ahead. Alex is slow but steady on her feet. Vivian has started walking with the push toys and is already looking more steady, now she just needs to build up her confidence and off she will go. Hunter has given up crawling and mastered walking, in fact, he is picking up the pace and running. Owen is pulling up on the shelves and lets go for increasing lengths of time working on his balance. He enjoys pushing the walker around the room and prefers table food to his bottles. Dominick is doing a commando crawl and squeals with delight with his newfound mobility as he pulls himself across the floor. He has also pulled himself to a stand on the activity cube a couple times. Sawyer is getting up on his hands and knees and rocking back and forth. Right now he only knows reverse and tummy rolls. It won't be long until he is cruising through the classroom. Emma is doing a great job of sitting up in the u-cushion and can even sit by herself for short amounts of time. She really loves her pureed fruits and veggies, yummy!

Don't worry Dads we have something special planned for you this month for Father's Day as well. We are sure it will cause a lot of wiggling too.

This time of year parents are often unsure how to dress their little ones for the day as the temperature can change drastically throughout the day and our class can be rather chilly when the A/C is running. We recommend that you dress in layers that can be taken off as the temp rises or as we move in and out of the A/C. Its a good idea to also have a selection of options in their diaper bins to choose from. We want your child to be comfortable throughout the day. We balance their time outside so that they do not get overheated. Thank you all for the sunscreen and hats.

We hope everyone has a great month. Summer is well deserved after the winter and spring we had this year.

Ms. Jolene, Ms. Evelina, and Ms. Sam
