

Branch Room News

Hi Branch Families,

Caitlyn, Carly and I feel very fortunate to be spending the last six weeks of the school year with your child. The Brancher's are a kind and thoughtful group, what a joy!

Your children have grown socially and emotionally this year. They are independent in their self help skills, they almost always settle their disagreements using their words, they are able to regulate their behaviors, and most importantly they enjoy school. In other words they are ready to become Blossoms!

In August, we will spend time exploring the commonalities and differences between the Branch and Blossom rooms. We will visit the Blossom room several times. Lane and Samantha will visit the Branch room to get acquainted with the Branchers. Lane is great with games so we anticipate a lot of fun. Lane and Samantha will be calling you the first week in August to introduce themselves. The Branch teachers are excited to go on this adventure with your child.

In our classroom this month we have been focusing on good old SUMMER FUN!

The Branchers made their very own play dough using Kool Aid. It smelled delicious and they especially enjoyed taking some play dough home with them.

Water play has become a daily event. The water has really helped to keep us all cool.

Painting their feet to create a trail of Brancher footprints was also a hit. They giggled as they painted the bottoms of their feet. The end result was a beautiful group "Happy Feet Rainbow". Check it out when you come into the classroom.

We are always available and you are always welcome in our classroom.

Happy Summer

Linda, Caitlyn, Carly
