

Sprout 1 News

Summertime, summertime, oh summertime we love you! All the Sprouts are so excited about playing on the new play structure, digging in the sand and enjoying the warm sun. We can't wait for the heat to begin. Bring it on!

In May we all had fun exploring different creepy crawlies; both inside and outside. During circle we enjoyed reading our bug books and singing our bug songs. **Gabriel** had fun singing all the songs, and after we finished, he would say, "Bugs. Bugs." In the classroom there were big and little bugs everywhere. Our sensory bin contained colored blocks and spiders and **Miles** would pick up the spider rings and say, "Uh oh. Broke." **Dominick** and **Natalie** also had fun playing in the sensory bin. **Natalie** would build tall block towers and then put the spider ring on top and say, "Oh no pider." **Dominick** would take the spider out of the bin, crawl it on Ms. Teresa's leg and say, "Oh no, spider on you."

JJ would find one of the bigger bugs that was in the classroom, chase his friends with it, and growl. He just loves growling. **Emma** liked to give the bugs a ride in the trucks. As she was pushing the truck around, she would smile and say, "Dey ride. Dey ride." In the classroom we also had more blocks to build towers and books about bugs and the adventures they have.

During art we made all kinds of different bugs including butterflies, beetles, spiders, caterpillars and many, many more. **Shaylie** really enjoyed painting with the bugs and with her fingers. She would stick her finger in the blue paint and say, "Blue bug. Blue bug." Everyone enjoyed the bugs we played with in the room, but it was so much more fun when we saw the real things outside.

Outside provided us with lots of crawly bugs as well as flying bugs. **Hunter** got very excited when she saw all the butterflies flying around. She would jump up and down yelling, "Yook. Yook. Butterfly." **Aerix** enjoyed trying to find bugs in the grass. When he couldn't find any, he would say to the teachers, "No bugs." **Abby** really enjoyed finding all the little black ants in the dirt. One day she decided the dirt would look good on her face. She looked up at Ms. Teresa and said, "Dirty face" and smiled.

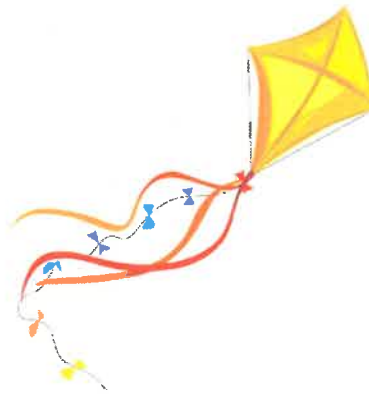

Sprout 1 News

May was a great month, and it was very nice of the bugs to come out to so we could see them during our bug month. We can't wait to see what adventures June will bring us. We will be zooming around as we explore our, "Trains, Planes, Cars, Oh My" theme. We will read about different vehicles and the people who drive them and work on them. We will also be singing about different modes of transportation. At art time we will be making buses, airplanes, cars and many, many more transportation vehicles. Throughout the classroom we will have lots of different transportation activities, and once the playground opens, we will be playing on our new structure and racing around on the bikes and cars. It's going to be a 'zooming' great June!

Thank you to Tammy and all the parents for a great Teacher Appreciation week. We also hope all the Moms, Aunties, Grandma's and Nana's had a great Mother's Day; and to all the Dads, Uncles, Grandpa's and Papa's out there, we wish you a very Happy Father's Day!

- If you could please make sure your Sprout has extra clothes that are weather appropriate, we would really appreciate it. As always, if you have any questions or concerns, please feel free to come talk to us.

Teresa, Anna and Nana Julie
