

# THE MONTHLY

GROWING TREE CHILDREN'S CENTER

# SEEDS

January 1, 2020

Happy New Year!

Can you believe its 2020 already? We are looking forward to the wonderful things this new year will bring, which includes new seedlings to get to know and watch grow.

**Easton** and **Guy** are continuing to spend more time with the Big Seeds as they prepare for their move full time in the Big Seed classroom. **Guy** has pushed himself up from a commando belly crawl to a full hands and knees crawl and is getting steady on his feet. **Easton** has his own way of scooting around the classroom. He is fast and happy with his mobility and independence. He is even getting on his knees and trying to pull up to a stand. We are going to miss **Guy's** sweet easy-going nature and **Easton's** squeezey hugs and melt into you snuggles. We will still sneak next door for hugs!

We will have new Seedlings. **Iris** and **Autumn**, they will drop in to visit us during the month of January. We will see more of them in February as they ease into the school routine. We would like to give them a big welcome! **Iris** is the baby sister to Cash in the Branch room and **Autumn** is the baby sister to Aspen in the Sprout room. **Mackson**, **Nora** and **Bella** are new to the Growing Tree family. We look forward to getting to know them and their families. We have much love to share.

**Mason** has grown up over the weekend. He is sitting up on his own, starting to pull himself across the floor on his forearms and tummy and has given up purees in favor of big people food

**Finley** is starting to sample some of the big seed food but is a little more skeptical of the texture and prefers his purees for now. We are sure he will figure it out fast.

**Mason** and **Finley** have found their voices and boy do they have a lot to say while making sure you hear them.

**Kate** settled in fast and is a very curious and independent girl. She took off with her crawling and loves scooting around the class exploring all the toy shelves, nooks and crannies.

**Tula** is working on rolling and has figured out how to get where she wants to go by rolling, turning on her tummy and pointed in the right direction. She loves her sweet potatoes and tummy time with her friend Kate.

**Friendly reminders:**

1. Please remember to write down what time your baby last ate and when they woke up, so we are better able to meet their needs.
2. Please label all food with your child's name and date before putting in the fridge. Date needs to be when food was opened, prepared or thawed date.
3. Please dress your baby in layers or bring in an extra layer that can easily be added or removed.
4. 4.Our class tends to be on the cool side and is even colder down on the floor where the babies like to play.

With all the big kids moving to the big seed room their family pictures are going with them and our family board is getting bare. Please bring in a family picture (it doesn't need to be professional or even good, we love silly and natural) that we can add to the board, even babies love to see pictures of people they love.

We hope you have a great month!  
Miss Jolene, Miss Deann and Miss Chloe
